WORK EXPERIENCE

NTT DATA (July 2023 - Febrero 2024)

Internship at NTT DATA in the banking sector:

- Active participation in the maintenance and continuous improvement of Calypso and Testing Suit applications.
- Optimization of its performance and functionality to meet the requirements of the Italian bank Intensa.
- Collaboration in the development and implementation of new functionalities.
- Comprehensive testing to ensure software quality, identify and fix problems.
- Constant interaction with a multidisciplinary team to understand the client's needs and offer effective and customized solutions.

Technologies: JAVA, TortoiseSVN, UNIX, JIRA and Excel.
Working Language: English.

EDUCATION

Currently studying a bachelor in Science.

University degree shared by the universities UAM/UC3M/UAB. Starting in September, 2020, currently on the fourth year. I am specializing in Mathematics and Computational Sciences. This degree has led me to discover my passion for programming.

Python Technician Specialist

- Course at A.E.P.I.
- Completed in July 2023.
- Qualification consisting of:
 - Python Professional Course: 100 hours.
 - Advanced Python Professional Master: 120 hours.

LANGUAGES

- Spanish: Native.
- English: B2 (Aptis - International Certificate)

ADDITIONAL INFORMATION

I have a strong interest in continuing to learn about programming, computing and software development. That's why I continue training as much as I can in this sector. In my Portfolio you can see some of the projects done in my training.

Other information:

- Driving license.
- Personal teacher in Mathematics and Physics.
- Lifeguard: summers of 2019 and 2021 (June - September). Hired by OZONIO NOVA XXI S.L.
